

## ORGANIC MATERIAL DROP OFF FACILITY

Revised 3/20/12

Black Gold accepts **CLEAN**<sup>1</sup> organic materials such as grass, leaves, branches, logs, and wood chips, at our Big Flats location only. We are NOT a garbage dump and enforce very strict policies for the dumping of ANYTHING that is NOT "**CLEAN**" 100% organic material. If you dump garbage, glass, nails, C&D, hardware, plastic, and/or *dirty stumps*<sup>2</sup> you will be charged a hefty fee to cover our cost of cleaning up and properly disposing of the material.

### HOURS OF OPERATION

Beginning Monday, March 26, 2012 our PRE-SEASON Hours will be Monday through Saturday from 8 AM to Noon at our Big Flats location. WE ACCEPT ORGANIC WASTE DROP-OFFS during our regular business hours ONLY. There is no dumping/trespassing before or after hours.

Please call or check our website for our current hours as we are predominately a seasonal landscape supply business, whose hours change throughout the year to accommodate our customers.

### CHARGES

We are a private business and not part of any government agency. Most of our customers are able to drop-off organic material FREE of charge, however there is a small percentage of customers that will be charged a minimal fee for *mixed loads*<sup>3</sup>.

### REGULATIONS

We are happy to serve our community, provide a service that is otherwise a taxpayer's burden, and to do our part in green recycling. Detailed regulations are available at our Information or Call Booth prior to the gated entrance, and on our website at [www.blackgoldtopsoil.com](http://www.blackgoldtopsoil.com) Again *nearly* all drop offs are Free.

---

<sup>1</sup> "**CLEAN**" defined as 100% organic material ONLY. No nails, hardware, glass, plastic, C&D, garbage, garbage bags-- absolutely **NOTHING** other than organic material.

<sup>2</sup> "**Dirty stumps**" stumps that have large amounts of soil, stone, clay, and debris entangled within its root system.

<sup>3</sup> "**Mixed loads**" are defined as any two organic products (other than grass and leaves) on the same load. **To avoid any charge, you may be able to sort your load on site and drop off the different materials in their designated areas within our facility.**
